Volume XVI Issue 3

FROM THE PRINCIPAL

This semester has obviously been a challenge for our students and staff. As you would expect, the Golden Eagles have risen to the occasion and have continued to soar despite those difficulties. Our students have been a joy to work with and have been extremely cooperative in following COVID-19 protocols. I am proud of their resilience. The virus is in our community, and as would be expected, our schools reflect that. We have had a number positive tests at BHS. We will continue to adapt and adjust in order to provide our students the best education that we can in spite of the conditions. I am confident that we will get through these challenging times together.

On a brighter note, we will be scheduling for next year's classes in less than two months. Look for upcoming information from our Counseling Department.

Stay safe, stay positive, and test negative!
Sincerely,

Mr. Hann

HIGH SCHOOL HEADLINES

Hybrid Schedule to Continue through (at least) January 15th

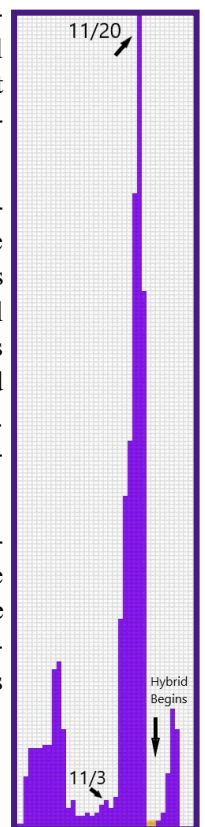

Bellbrook High School will continue using the hybrid model when we return from Winter Break on January 4 and will remain hybrid through at least January 15th. The district intends to return to 100% attendance on 1/19/21, if conditions allow.

BHS and BSS Schools moved to the hybrid model on November 16th in response to a dramatic increase in positive tests and soaring numbers of mandated student quarantines within the building. The move was made to allow for social distancing that would aid in slowing the spread of the virus and decrease the number of students and staff that would have to be placed in quarantine in the case of a positive test. As anticipated, the numbers of students and staff quarantined have dropped dramatically as a result.

In the two weeks prior to moving to hybrid, BHS was required to quarantine 235 students and 5 staff members due to 10 student and 2 staff positive COVID-19 cases. Since moving to hybrid we have had 5 students and 1 staff member test positive, yet we only had to quarantine 11 students and 0 additional staff members due to in-school exposure.

CLASSROOM AND DEPARTMENTAL NEWS

BHS ENGINEERING UPDATE

Introduction to Engineering Design students recently finished their Quarto board games in class. The students created all of the various pieces in a CAD program. They then 3D printed all of the game pieces, and laser cut/engraved all of the game board pieces as well. They have recently begun learning about multi-component assemblies and ways to document those assemblies.

Principles of Engineering students are wrapping up their materials and structures unit with a project requiring them to design a bridge using a bridge design CAD program. Students will apply the information they have learned in class about materials and statics to design the most cost effective bridge that will also be structurally sound.

Civil Engineering and Architecture students are finalizing their Residential Design Projects. While using an architecture CAD program, they have spent all of 2nd quarter designing a house for their client while adhering to Habitat for Humanity guidelines and county code requirements.

In Digital Electronics, students have completed a project dealing with displaying their personalized message on a seven segment display. Upon completion of this project, students have worked on building a device that functions as a personal computer and a game emulator and also building remote controlled robots.

Aerospace Engineering students have spent the last few weeks of the semester working on a wing and airfoil project. Students researched, designed and used computer software to simulate airfoils before they used vector-drawing software and the laser cutter to build airfoils and test these airfoils in a wind tunnel. After analyzing data from the wind tunnel tests, students transitioned to building the full wings for their remote controlled plane, which they will fly with the modified wing next semester.

In Engineering Design and Development students are preparing for their presentations concerning their senior engineering design projects. Students spent the first semester thoroughly researching their problem, identifying the need for a problem solution beyond current solutions, and developing criteria for their problem solution. Next semester, students will design, build, and test prototypes as a solution to their problems.

STEM Club students are in a mix of two different projects. Luke Smallwood is in the final stages of creating a CAD design for a fully functional components case (inspired by the Nintendo Game Boy). The cases will be 3D printed for the Digital Electronics students to use to attach their components. Another group of students are in the initial stages of laser cutting and assembling personal document cameras (assisted with the help of BSEF) for students working remotely to use with their Chromebooks.

Winter Sports Update

Boys Basketball is 1-2 (Losses to Northmont & Monroe; Beat Oakwood). The team plays at home vs Valley View on Friday Dec. 18th.

Girls Basketball is 2-1 (Beat Beavercreek & Franklin; loss to Miamensburg). They played at home vs Valley View Sat Dec 13th.

Wrestling had their first meet Dec 16th @ Valley View.

Swim & Dive Girls won 6 events for their season opener. Both teams will host several schools at their next meet on Sat Dec 19th @ DRAC.

Spectators: We are currently asking that only parents and step-parents attend basketball games and wrestling meets. In January we hope to be able to allow siblings and grandparents but that will be based on the COVID situation at the time. The spectator situation for competition cheerleading is different for each meet. For the majority of our swim meets, including all home meets, no spectators will be permitted.

We are streaming Home Basketball Games & Home Wrestling Meets which is free on our Athletic Department YouTube Channel.

MUSIC DEPARTMENT NOTES

After an unprecedented fall marching season, the Music Department continues to play and sing following safety protocols, including special masks, bell covers, and bags for the woodwinds. The groups are hard at work preparing for their winter concerts, which will be live streamed/virtual this year. The Wind Ensemble and Symphony Band performed via live stream on Wednesday, December 9 from the high school gym. Both band and choir performances can be found on the Athletic YouTube channel.

The Indoor Percussion Ensemble has begun rehearsing their 2020-21 winter program entitled "Moving Parts."

Their competitive season this year will look different and will be a combination of in-person and virtual events. The Winter Guard season is also underway, and they also will also be having a season that includes in-person and virtual performances. Stay up-to-date on the Music Department's Facebook, Instagram, and Twitter accounts! And don't forget - the Bellbrook Music Boosters meet monthly on the first Monday of the month at 7:15. Hybrid Learning Continued from Page 1

At this time, it appears that the spread of the virus in the building has been minimal. Students and staff have done a commendable job of following safety protocols in the building. The virus is, however, spreading quickly in our community and you can expect that in time BHS will mirror community spread in spite of our best efforts.

We need your help. We all must do what it takes to stop the spread. Please be cautious if gathering with others over break. Please email Mr.

Hann and School Nurse Mrs. Valley with any positive cases during the holidays. Help your student (s) follow safety protocols both inside and outside of school. Please help our students and staff stay in the classroom! Please see the BHS Hybrid Schedule on page 10.
